

pHin Smart Water Care Solution Named Finalist for the Edison Awards

pHin Recognized for Innovation in Consumer Goods for the Home

San Jose, Calif. – February 27, 2018 – ConnectedYard, maker of the [pHin Smart Water Care](#) solution, today announced that pHin has been named a 2018 Edison Awards finalist in the Consumer Goods Work & Home category. Named after Thomas Alva Edison, the award recognizes and honors the world's best in innovators and innovations and will announce gold, silver and bronze award winners at the 31st Annual Edison Awards ceremony held April 11, 2018 in New York City.

pHin is an innovative smart water care solution that takes the guesswork out of pool and hot tub maintenance by combining a wifi-enabled smart monitor and mobile app that monitors water chemistry and temperature 24/7, and notifies customers via smartphone when they need to take action. Customers receive recommendations on how to balance their water so they add only the exact chemicals needed.

“Pool and hot tub owners love enjoying their backyards with family and friends, but don’t enjoy the cost and labor involved in maintaining their pools and hot tubs. With pHin, pool and hot tub owners have a simple, smart, easy to use, and cost effective solution for maintaining their pools and hot tubs,” said Mark Janes, co-founder and COO of ConnectedYard. “We’re honored to be recognized as an Edison Awards finalist as we continue to bring intelligence and automation to the connected backyard.”

Established in 1987 and often described as “the Oscars of Innovation,” the Edison Awards recognizes and honors the world’s best innovations and innovators. All nominations were reviewed by the Edison Awards Steering Committee and the final ballot sent to an independent judging panel. The judging panel was comprised of more than 3,000 professionals from the fields of product development, design, engineering, science, marketing and education, including professional organizations representing a wide variety of industries and disciplines.
