

# pHin<sup>TM</sup> Smart Pool and Hot Tub Monitor

A new, smarter way to monitor your customers' water chemistry

## What is pHin?

The pHin smart monitor is an innovative addition to the Hayward product portfolio that works with chlorine, bromine, and salt water based pools, hot tubs and spas. pHin monitors pH, sanitizer and temperature levels over 1,000 times per week and notifies your customers when their chemicals need adjusting with an easy-to-use mobile app. Keep an eye on things with pHin's Partner Portal, where you get 24/7 access to water chemistry charts viewable by day, week, month and 90-day history. pHin provides you and your customers or service technician partners with a new level of insight to the vessel's water chemistry, and pHin's app notifies your customers or service technician partners when chemicals need adjusting and can also provide detailed dosing information with preferred chemicals.

## Builder Benefits

**Dedicated Support Team:** A dedicated pool builder support team at your service.

**Warranty Claim Protection:** Use the water data pHin provides in the Partner Portal to help protect your business against warranty claims that may arise during the curing period.

**Differentiate Your Business:** Set your business apart with an innovative smart water care monitor that helps your customers protect their investment in their new pools.

**100% Warranty Coverage:** Free replacements in the event of failure for all active pHin subscribers.\*

## Product Benefits

**Smarter Monitoring:** Tests pH, sanitizer and temperature levels 1000x per week.

**pHin Partner Portal:** Easy-to-use charts and graphs of your customer's pool chemistry data

**Preferred Chemicals:** pHin allows preferred chemical brands to appear for customers.

**Works With All Water Types:** Chlorine, bromine and salt water pools, swim spas and hot tubs.

**Dosing Instructions:** Specific dosing instructions to help your customers maintain balanced water.

**Works With All Vessels:** Pools, hot tubs and swim spas.

\*Monitoring subscription is \$99/year after the first year, and includes a 1 year warranty extension with each renewal.

## How pHin<sup>TM</sup> Works

**Partner Portal:**

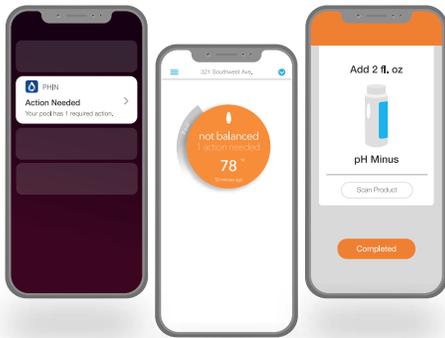

The pHin Partner Portal provides you with comprehensive water data that allows you to see how well your customers care for their pools and hot tubs during the crucial curing period.

- 1 **Color-Coded Discs.** See your customers' water health at a glance.
- 2 **Customer Profile.** Have your customers' vessel type and information conveniently located at the top of our Partner Portal.
- 3 **Charts.** Analyze your customers' historical pH, ORP & temperature levels for up to 90 days for a data-based approach to warranty claims.
- 4 **Actions.** Know what actions pHin is recommending to keep your customers' water safe and whether or not they are following the instructions.
- 5 **Water Report.** Knowing your customers' TA, TH & CYA levels can help you make chemical recommendations that suit their individual needs.
- 6 **Chemicals.** See what chemicals your customers are using in their water.

**Detailed Dosing Instructions:**

pHin gives your customers the detailed dosing instructions they need to keep their pools and hot tubs balanced.

**Preferred Chemicals:**

Showcase the chemicals you want to recommend to help your customers protect their investment in their pools and hot tub.

**What's in the Box:**

Find all you need in the box to get started.

**Technical Specs:**

SKU: PHRTL19FL  
Unit dimensions: 1.5 x 4.5 x 10 inches  
Box dimensions: 7 3/4 x 12 1/4 x 3 1/4 inches  
Master Carton UPC code - 851407007181

Technology: WiFi & bluetooth  
Batteries: 1 lithium metal battery (included, non-replaceable)  
Language: English  
Certification: FCC / IC  
Supported apps: iOS, Android

- 1 Wireless Bridge (may include AC adaptor).
- 2 Smart Monitor.
- 3 Calibration Kit.
- 4 Tether.
- 5 User Manual.
