

pHinTM Smart Pool and Hot Tub Monitor

A new, smarter way to optimize your business.

What is pHin?

The pHin smart monitor is an innovative addition to Hayward's product portfolio that measures temperature, pH and sanitizer levels over 1,000 times per week. pHin will change the way you do business.

Whether you are looking for a centralized dashboard that allows you to access your clients' water chemistry data anytime, anywhere, or you are interested in offering a new premium level of service, the pHin Smart Monitor and Partner Portal provides you with an unprecedented level of data and insight.

Elegantly designed, pHin is an easy-to-use wireless device that simply floats in the vessel's water while its sensors collect valuable water chemistry data that is presented by day, week, month and 90-day history. pHin works with chlorine, bromine, and salt water based pools, hot tubs and spas.

Service Tech Benefits

24/7 Water Report: Check the status of your customers' water anytime, from anywhere.

Works With All Retail Chemicals: pHin supports the retail chemicals you trust to maintain your customers' pools and hot tubs.

100% Warranty Coverage: Free replacements in the event of failure while you're an active pHin subscriber.*

A Dedicated Service Tech Support Team: A dedicated support team at your service.

Product Benefits

Smarter Monitoring: Tests pH, sanitizer and temperature levels 1000x per week.

pHin Partner Portal: Easy-to-use charts and graphs of your customer's pool chemistry data allow you to schedule your routes using hard data.

Preferred Chemicals: pHin allows preferred chemical brands to appear for customers.

Works With All Water Types: Chlorine, bromine and salt water pools, swim spas and hot tubs.

Dosing Instructions: Specific dosing instructions to help you maintain balanced water.

Works With All Vessels: Pools, hot tubs and swim spas.

*Monitoring subscription is \$99/year after the first year, and includes a 1 year warranty extension with each renewal.

How pHinTM Works

Partner Portal:

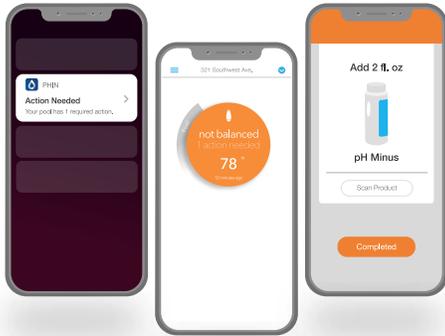

The pHin Partner Portal provides you with comprehensive insight about your customers' water health that allows you to plan your service routes more efficiently.

- 1 **Color-Coded Discs.** See your customers' water health at a glance.
- 2 **Map.** Plan out your route using our maps for more efficiency.
- 3 **Charts.** Analyze your customers' historical pH, ORP & temperature levels for up to 90 days for a data-based approach to pool maintenance.
- 4 **Actions.** Know what actions pHin is recommending to keep your customers' water safe and stock chemicals for your route accordingly.
- 5 **Water Report.** Knowing your customers' TA, TH & CYA levels can help you select chemicals that suit their individual needs.
- 6 **Chemicals.** Keep track of the chemicals you use for each customer's pools and hot tubs.

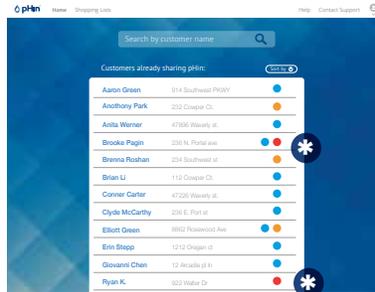

Detailed Dosing Instructions:

pHin gives you detailed dosing instructions, saving you time on your routes.

Route Optimization:

Knowing which pools need urgent attention allows you to efficiently plan your routes.

- * Know which pools need urgent attention.

What's in the Box:

Find all you need in the box to get started.

Technical Specs:

SKU: PHRTL19FL
 Unit dimensions: 1.5 x 4.5 x 10 inches
 Box dimensions: 7 3/4 x 12 1/4 x 3 1/4 inches
 Master Carton UPC code - 851407007181

Technology: WiFi & bluetooth
 Batteries: 1 lithium metal battery (included, non-replaceable)
 Language: English
 Certification: FCC / IC
 Supported apps: iOS, Android

- 1 Wireless Bridge (may include AC adaptor).
- 2 Smart Monitor.
- 3 Calibration Kit.
- 4 Tether.
- 5 User Manual.
