

PHin™ yellow pods

pH Down for Pools

Lowers pH level in swimming pool water

PRINCIPAL FUNCTIONING AGENT:
 Sodium Bisulfate 95%
 CONSTITUENTS INEFFECTIVE AS ADJUVANTS 5%
 Total: 100%

Not for aquatic environments such as lakes, streams, ponds.

KEEP OUT OF REACH OF CHILDREN

DANGER

CORROSIVE

Read all Precautionary Statements and First Aid on back panel before using.

Net Weight: 32 oz. (4 x 8 oz. Pods)

PHin™ yellow pods

pH Down for Pools

Lowers pH level in swimming pool water

DIRECTIONS FOR USE

Maintenance of the proper pH of swimming pool water is second in importance only to proper disinfection. The most efficient and economical use of chlorine is obtained when the pH of the water is maintained at all times between the values of 7.2 pH and 7.8. Between these two levels, eye irritation will be reduced to a minimum and equipment life will be prolonged.

When the pool water pH value is above 7.8, as determined by the use of a pH test kit, add one 8 oz. **pHin™ Yellow Pod, pH Down for Pools** while the pump is in operation for each 20,000 gallons of water by distributing it into the deep end of the pool (but not near metal fittings or the skimmer.)

Allow 6 to 8 hours for distribution of the chemical throughout the pool, and then recheck the pH.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: Corrosive. Causes skin burns and permanent eye damage. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS: Do not mix with other chemicals.

IMPORTANT NOTE: Forms sulfuric acid upon exposure to water. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area.

STORAGE & DISPOSAL:

Keep dry and in original container in a cool, dry, well-ventilated place. Do not store with chlorine, bromine, or oxidizing agents. Keep container tightly closed when not in use. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse empty container.

**IN CASE OF EMERGENCY
 CALL: 1-800-222-1222**

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-222-1222
 Have the product container or label with you when calling a poison control center or doctor or going for treatment.
