

PHin™ light blue

Chlorinating Skimmer Sticks for Pools

Ideal for all pool types, including vinyl-liner pools
Kills bacteria, destroys organic contaminants & controls algae

ACTIVE INGREDIENT:
Trichloro-s-Triazinetrione 97.3%
OTHER INGREDIENTS: 2.7%
TOTAL 100.0%

Available Chlorine..... 88%

KEEP OUT OF REACH OF CHILDREN
DANGER

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Only add product into water.

Read all Precautionary and First Aid Statements on back panel before use.

Net Weight: 2 lbs. (4 x 8 oz. Sticks)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT:

When used as directed, this product is an effective swimming pool water sanitizer.

These convenient and easy to use **pHin™ Light Blue Chlorinating Skimmer Sticks for Pools** are formulated to protect against chlorine loss in direct sunlight, and can be used in the skimmer. They are designed to dissolve slowly to provide a steady source of available chlorine (up to 2 weeks).

HOW TO USE:

Place this product in the skimmer. Use in skimmer which has previously contained only this product, trichloro-s-triazinetrione. Run the pump a minimum of eight hours daily. **DO NOT** use in feeders or floaters. **DO NOT** throw sticks directly into pool or pool surface damage could occur. **DO NOT** permit sticks to contact plastic pool linings or metal objects. **DO NOT** add other chemicals to the skimmer while this product is present.

If chlorine residual goes above 4 ppm, reduce skimmer flow rate or daily pump operation time. If chlorine residual goes below 1 ppm, increase skimmer flow rate or daily pump operation time and add enough **pHin™ Dark Blue Pods Chlorinating Granules for Pools** granular shock to maintain 1-4 ppm of chlorine.

Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.

WATER BALANCE:

Adjust and maintain pool water to recommended ranges:

| | Acceptable Range for Balance |
|--------------------|------------------------------|
| Total Alkalinity | 80-120 ppm |
| pH | 7.2-7.6 |
| Calcium Hardness | Above 200 ppm |
| Available Chlorine | 1-4 ppm |

NOTE: Always check and adjust total alkalinity before adjusting pH levels.

OPENING YOUR POOL:

Balance pool water per levels in WATER BALANCE section. Shock treat with a **pHin™ Dark Blue Pods Chlorinating Granules for Pools** shock product and stabilize your pool using stabilizer. Follow label directions for each of these products.

ROUTINE CHLORINATION:

Add one stick per 5,000 gallons of pool water every 1 to 2 weeks, or as often as needed to maintain a chlorine residual of 1-4 ppm. This dosage may vary depending upon bather load, water temperature and other conditions.

SHOCK TREATMENT / SUPERCHLORINATION:

As a preventative treatment, shock treat your pool once per week with **pHin™ Dark Blue Pods Chlorinating Granules for Pools**. Additional shock treatments may be necessary to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.

- Open in a well-ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove and wash contaminated clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-222-1222

PHYSICAL AND CHEMICAL HAZARDS:

DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Only add product into water.

- Do not allow to become wet or damp before use.
- Do not remove skimmer basket from water for more than five minutes if it contains a stick or stick residue.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- Keep all foreign matter, including other water treatment products, away from this product.
- Do not use this product in a floater or feeder.
- Do not allow this product to contact other water treatment products.

If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

Strong oxidizing agent. This product can increase fire intensity.

- Keep away from heat and from flame and burning material, including lighted cigarettes.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING."

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
